

About Commercial and Industrial Tariffs (Applicable to 480/415/240 Volts Supplies)

as at 1 July 2010

Increased 13.29% from 2009/2010 tariffs

Tariff	Units (kWh)	Cents per kWh GST exclusive	Min Payment / Service Fee	Remarks
General Supply Tariff 20	All Consumption	21.75	Service fee per metering point per month \$13.54	This tariff may be used for all types of electricity usage and is the most appropriate tariff for customers with a predominantly daytime consumption. This tariff is not available with General Supply Tariffs 21, 22 and 23. Farm Time of Use Tariffs 62 and 63 or Demand Tariffs at the same installation.
General Supply Tariff 21	First 100 per month Next 9900 per month Remainder	27.02 25.38 19.32	Minimum payment per month \$12.10	This tariff is only suitable for installations where the typical monthly consumption is under 330 kWh. This tariff is not available with General Supply Tariffs 20, 22 and 23. Farm Time of Use Tariffs 62 and 63 or Demand Tariffs at the same installation. Most of the existing customers will transfer to Tariff 20.
General Supply Time of Use Tariff 22	Low Rate All consumption High Rate (7am-9pm Mon-Fri) All Consumption	9.31 26.43	Service Fee per metering point per month \$29.82	Low rate electricity is from 9.00pm to 7.00am Monday to Friday and all weekend. Electricity used outside these hours is charged at the higher rate. This tariff has a substantially lower rate for electricity consumed at night and on weekends than Tariff 20 rates. It can be attractive to customers whose operation can be managed such that more of their total usage occurs at night and on weekends. This tariff is NOT AVAILABLE with General Supply Tariffs 20, 21 and 23. Farm Time of Use or Demand Tariffs at the same installation. For further details on specific application of this tariff please call 13 12 53.
Non-Domestic Heating Time of Use Tariff 37	From 10.30pm – 4.30pm (18hrs) From 4.30pm – 10.30pm (6hrs)	11.57 28.93	Minimum payment per month \$4.94	This tariff is available for non-domestic loads only. It covers a variety of applications including electric storage water heaters, production of steam and other permanently connected heating loads of 4kW or more. Motors connected as an integral part of the heating equipment may be supplied at Tariff 37 rates provided they make up no more than 10% of the total equipment rating. OBSOLETE - NOT AVAILABLE TO NEW CUSTOMERS AFTER 30/06/07
General Supply Demand (Low Voltage) Tariff 41	Energy Charge All consumption Demand Charge Monthly billed demand of maximum demand recorded in the previous month; Or 60% of highest demand from previous 11 months; Or 75kW, whichever is the greatest.	6.74 \$32.04 per kW per month	Service fee per metering point per month \$45.64	This tariff can be appropriate for customers having monthly consumption of about 16,000 kWh or greater and a load factor over 30%. As well as having an electrical energy (kWh) charge, there is also a charge for the power demand (kilowatts) that is imposed on the electricity supply system by the installation. This demand is affected by the amount of equipment being operated at the same time. No other tariffs are available for use in conjunction with Tariff 41. If you choose this demand tariff, then the whole installation has to be supplied on this tariff. Customers may be able to reduce their energy costs by moving non-essential load away from peak usage periods. For further details on your specific application of this tariff, please contact Energex.
General Supply Demand Time of Use (Low Voltage) Tariff 43	Energy Charge (7am – 11pm Monday – Friday) Other Times Demand Charge Monthly billed demand of maximum demand recorded in the previous month; Or 60% of highest demand from previous 11 months; Or 400kW, whichever is the greatest.	13.71 5.48 \$13.87 per kW per month	Service fee per metering point per month \$45.64	This tariff is for large installations. It is particularly suitable for customers using over 200,000 kWh per month, when their load factor is in the range 35% to 75% and off-peak period use ranges between 20% and 75%. For assessed suitability of this tariff for your installation, please call 13 12 53. If you choose this Demand Tariff, then the whole installation has to be supplied on this tariff. Customers may be able to reduce their energy costs by moving non-essential load away from their peak usage period. For further details on your specific application of this tariff, please call 131253.
Domestic Tariff 11	All Consumption	19.41	Service fee per metering point per month \$7.47	This tariff is applicable to electricity supplied to Domestic premises primarily for the personal use of the resident/s of those premises. Where premises are primarily operated as a business, including the provision of short stay accommodation of a holiday nature, Tariff 11 is NOT applicable. This tariff is also applicable to electricity used in separately metered common sections of domestic premises consisting of more than one flat or home unit.
